Eat Fish
Choose Wisely!

Did you know? Seafood is an important source of nutrients, especially during pregnancy. Choose Fish Wisely to limit mercury exposure.

Action Plan

- Eat up to 3 servings per week of low-mercury fish such as tilapia, cod, salmon, and canned light tuna. Fish contain nutrients that support healthy brain development.

  What’s a serving of fish?

- Avoid fish known to be high in mercury such as shark, swordfish, king mackerel, tilefish, tuna steaks, and tuna sushi.

- Check local fish advisories before eating the fish you catch. Fish caught in many NY water bodies may contain mercury and other pollutants.
