

Eat Fish

Choose Wisely!

Did you know?

Seafood is an important source of nutrients, especially during pregnancy. Choose Fish Wisely to limit mercury exposure.

Action Plan

- Eat up to 3 servings per week of low-mercury fish such as **tilapia, cod, salmon, and canned light tuna**. Fish contain nutrients that support healthy brain development.

What's a serving of fish?

Source: FDA and EPA

- Avoid fish known to be high in mercury such as shark, swordfish, king mackerel, tilefish, tuna steaks, and tuna sushi.
- Check local fish advisories before eating the fish you catch. Fish caught in many NY water bodies may contain mercury and other pollutants.
