

## Lead Paint (NYC Residents)

### Did you know?

*Lead paint dust in older homes is the main way children are exposed to lead. Even low levels of lead can affect a child's learning and behavior.*

### Action Plan

- If you rent in NYC and have a young child, your landlord is required to inspect for lead hazards/ peeling paint every year if your building has lead paint (built before lead paint was banned in 1960).
- If peeling paint is present, landlords must safely fix it. If not, call 311.
- Your child should get tested for lead at their 1 and 2 year old doctor visit. Older children should get tested if you are concerned about a potential lead exposure.
