

# No Time To Waste

Friday evening March 25  
7 - 8:30 pm

Presented by the Wyandanch Earth Rangers

This year

We'll be virtual again!  
Join us on Zoom.

Did you know microplastics may be inhaled and have been found in human organs and revealed in the placentas of unborn babies? And recycling is important, but will never be the solution to our rapidly expanding plastic consumption

Watch a couple videos with us to learn more about plastics, play a game (and maybe win a prize), and take action to help our planet.

Register in advance for the Zoom meeting:

An Earth Ranger is someone who cares both **about** the earth and **for** the earth. Earth Rangers understand the importance of learning about the earth's life systems and enjoy experiencing the natural world, but they also know that some of the living things on the earth are in trouble and how they can help.
