

2025 Envision the Environment

What Does A Healthier New York State Look Like?

The NYS Children's Environmental Health Centers (NYSCHECK) are seeking creative students and trainees of all ages to share their visions.

Environmental health considers pollutants in air, water, food and other consumer products; healthy homes, schools, workplaces and neighborhoods; and social determinants such as poverty and racism.

Create an original artwork that captures your vision in one of two categories:

Healthy Communities

What do homes, neighborhoods and places that are healthy for people look like?

Fast Fashion

What can you tell us about the problems and solutions for the rapid production and disposal of clothing that contributes to climate change and pollution?

Select works will be **awarded prizes**, published on [NYSCHECK.org](https://nyscheck.org) and social media platforms, and presented at our Children's Environmental Health Day celebration in October.

Envision the Environment

**Submissions due by
September 25, 2025**

Eligibility

NYS students of all ages,
along with professional
studies trainees

Criteria

Original artworks only,
